

SPORT NOTES.

INDOOR BASEBALL

OLD TIMERS 15; G.W.V.A. 11

The Old Timers showed some class Wednesday night in their second appearance, and gave the G.W.V.A. a lively argument in what proved to be the closest and in many ways the best game that had been played. The score indicates that the holding was much more effective than formerly. Judging from appearances, some of those Old Timers are just renewing their youth on this baseball stunt. Some class to Mann and Gibson with their 1000 hitting average.

Old Timers— AB R H
V. Day, 1b 5 1 1

Left on bases—Old Timers 8, G.W.V.A. 8.
Umpires, H. Malcolm and Geo. Ely.

RETAILERS 15—BANKERS 38

The second game Wednesday night did not come up to advance notices. A close game was expected, but the Retailers were never dangerous contenders for this honor. The Bankers were crippled to some extent, but the Bankers were playing pretty fast. Heriman, Milne and Wood showed up in good advantage. Ely deserves credit for making the base-runners observe at least some of the rules. There is too much tendency to lead off ahead of time.

RETAILERS—

Home run, D. Smith.
Left on bases—Retailers 4, Bankers 10.

Bases on balls—Retailers 1, Bankers 4.

Umpire—Ely.

MILITIA 54; WHOLESALERS 26

The game Friday night between the Militia and the Wholesalers had a few distinguishing features. First of all, there was too much scrapping. Either the umpire or the players were to blame for this. There was altogether too much leading off bases; the rules should be enforced in this regard, even if it requires an extra umpire to do it.

A clever triple play by the Militia in the 3rd inning retired the Wholesalers just when they were starting to go strong with none down. A strange coincidence was the fact that Roy Malcolm was left on bases every inning, and Cliff was first to bat for the Militia in four successive innings. Altogether the game was quite a swatfest, each team scoring in every inning.

C.P.R. 27; HIGH SCHOOL 26

The closing game of the season was played on Saturday afternoon between the C.P.R. and the High School. The railroad men rather upset the hope at that, as the Students were expected to win, but didn't quite make the grade. The game was exciting all the way. In the 3rd inning and the first half of the 4th only one man on either side reached first. With the score standing 23-16 in favor of the C.P.R. at the end of the 6th, it looked like an easy win. In the 7th, with 2 students down, Ely and Fervell collared on what should have been an easy out, the ball went up, and the High School scored 10 runs, and the third man was put out. The C.P.R. had to make 3 to tie or 4 to win, and just succeeded with 2 down.

C.P.R.—

High School 3 5 0 0 5 10—26

Home run, Lowe.
Left on bases, C.P.R. 11, High School 9.

*Winning run scored with two men down.

Glasgow and Gibbs, umpires.

CANMORE ARE INTERMEDIATE CHAMPIONS

As the result of defeating Blairmore 5 to 3 on Blairmore ice, followed by a 5 to 0 shutout on home ice, Canmore easily clinched the Intermediate Hockey Championship of Alberta last week. Canmore seems to have a particularly strong team, having won 15 straight games. The Canmore is challenging for the senior championship.

WHOLESALE 15; RETAILERS 28
Monday night's game was a wonderful combination of good playing part of the time, and loose work the rest of the time, with lots of arguments most of the time. There were more blank innings than in any game up to date and lots of fun. The Retailers were never in much danger of losing.

Wholesalers— AB R H
McBride, c 3 3 3
Gibbs, p 6 2 2

Umpire, Orma.

RED DEER CURLERS AT INNSFALL

Two rinks from Red Deer played two draws with Innisfail Monday night on the southern ice, one at 6 p.m. and one at 10 p.m. Innisfail scored a majority of one point on the four games. A real good time was had. The rinks lined up as follows:

5 o'clock games—

Red Deer—E. M. Smith, D. A. Smith, J. Fulton, G. H. Lindsay, skip, 11.

Innisfail—C. B. McNeill, H. J. Percy, J. Gilmore, W. Watt, skip, 8.

Red Deer—A. H. Moyes, J. McFarlane, H. McLevin, A. R. Gibson, skip, 8.

Innisfail—McMann, F. Watkins, E. Hall, Ewer, skip, 10.

10 o'clock games—

Red Deer—E. M. Smith, D. A. Smith, G. H. Lindsay, J. Fulton, skip, 11.

Innisfail—F. W. Byre, S. A. Fox, Dr. Wagner, W. G. Wilson, skip, 10.

Red Deer—A. H. Moyes, J. McFarlane, H. McLevin, A. R. Gibson, skip, 8.

Innisfail—W. Hodges, F. Kirkham, Dr. Turner, D. H. Kremer, skip, 10.

RED DEER AND PONOKA CURLERS

Two rinks from Red Deer went to Ponoka last Wednesday night and played double header games there. Welliver defeated his opponent in both games; the gross score was in Red Deer's favor. Al. White says nobody could win anything at Ponoka. The Red Deer rinks were: Locke, McLevin, Welliver skip.
Following is the score on the four "yard":
Welliver, sk. 15 Small, sk. 15
Hanna, sk. 14 Cummings, sk. 15
Welliver, sk. 14 Clarke, sk. 12
Hanna, sk. 11 LaFrance, sk. 15
Majority for Red Deer, 1.

LOCAL CURLING COMPETITIONS

The Gaetz Cap final games were played between Welliver, Clarke and Hunter rinks.
In the Brumpton Cap competition, Kent, Johns and Brown are the sectional leaders and have yet to play off.

CALGARY CLUB DEFEATS INNSFALL FOR THE MACDONALD

The Macdonald Tobacco challenge trophy remains in possession of the Calgary Curling Club, the result of skips Alex Coultis and J. M. Campbell defeating skips Kremer and Wilson, of Innisfail. Both Innisfail rinks went down to defeat, although the issue was in doubt until the last end. Coultis, who finished first, defeated Kremer 14 to 5. Calgary having a lead of two points at that time, with Campbell and Wilson having two more ends to play. Campbell put over a count of five on the eleventh and this he cinched the competition. Campbell won out by 16 to 12.

The games were played on keen ice and on the whole the curling was worthy of a challenge competition.

After the game the curlers and members of the Calgary club were provided with refreshments in President Robert Mackay's "saw room."

The players were:
Calgary—Joe Murray, W. Morrison, D. Black, A. Coultis skip, 14.

Innisfail—F. W. Byre, S. A. Fox, Dr. Wagner, Wilson skip, 13.

Calgary—W. Lockhart, F. Tarrant, Dr. Paxton, J. M. Campbell skip, 16.

Innisfail—W. Dodge, F. Kirkham, Dr. Turner, Dick Kremer skip, 9.

Calgary—Joe Murray, W. Morrison, D. Black, A. Coultis skip, 14.

The Alberta Amateur Wrestling Championships for 1921 will be decided on Friday, April 8th at Lethbridge, under the direction of the Y.M.C.A. there.

OTTAWA SENATORS DEFEAT CALGARY TIGERS

A few fans went down to Calgary on Saturday night to witness the hockey game between the Ottawa Senators and Calgary Tigers, and on a splendid exhibition of hockey to the utmost in the third.
Though the Senators came out ahead by 2-0, the Tigers held up their end well, and deserve great credit when it is considered they were playing against the holders of the famous Stanley Cup.
There was no score in the first period, but the Senators secured one in the second and one in the third.
Rold, in goal, Gardiner, defence, and Stanley, centre, played great games for Calgary. Rold stopping numerous shots.
Benedict, the Ottawa goalie, was also in great form, and Nighbor, centre, and Denny, were going fast on the forwards. The Senators have a particularly strong defence, and kept the Tigers well outside.

The game was very clean, only two penalties being handed to each team.

BIKING IN PARIS

New York, March 17.—Paris is to have a six-day bicycle race this year, for the first time since 1913. It is set for March 28 to April 4. American teams have been invited to compete.

The Calgary Galedonian Games

The Calgary Galedonian Games Society have asked for permission to hold the Track and Field Athletic championships for Alberta. This application and any others that may be received will be decided by ballot of the governors of the Alberta branch of the A. A. U. of Canada on April 2.

Calgary Tigers defeated Moose Jaw Maple Leafs by 5 to 4 and 6 to 3 on the double game series in Calgary.

Playing on home ice, Cafestairs defeated Lacombe Wednesday night by 4 to 2.

WETASKIWIN 3; LACOMBE 14

Lacombe, March 16.—In a return game of hockey the Lacombe Vics defeated the Wetaskiwin intermediates on Saturday by a score of 14 to 3, thus turning the tables on Wetaskiwin, as the Lacombe side was defeated 3 to 4 at Wetaskiwin.

CALGARY TIGERS WIN INTER-CITY CHAMPIONSHIP

Edmonton, March 18.—Edmonton defeated the Tigers 2 to 1 last night, but the Tigers won the inter-city championship series by a total score of 3 to 2 on the round.
Charlie Rold, in goal, was invincible last night. The Edmonton outshot the Tigers four to one, but Rold handled anything and everything that came his way with ease. Rold's work during the past season stamps him as being in the foremost rank of custodians, being fully on a par with Windler.

UNIVERSITY OF ALBERTA BASKETBALL TEAM WINS TWO CHAMPIONSHIPS

By defeating the Raymond Basketball team 46-26, on the University floor, the U. of A. basketball team won the Championship of Alberta. Raymond won the first game on their floor 33-34, giving the University a majority of 16 points on the two games. With the Provincial Championship goes a beautiful silver cup, donated by the Gillette Safety Razor Company, through their Alberta representative.

The University of Alberta also won the Western University Championship, defeating Manitoba and Saskatchewan Universities twice each.

In the twelve championship games played only one game was lost, and that by four points, which is undoubtedly an excellent record.

RED DEER BILL AS AMENDED

PASSED BY COMMITTEE OF THE LEGISLATURE
LAST WEEK

WHEREAS the City of Red Deer has prayed for certain amendments to chapter 70 of the Consolidated Ordinances of the North-West Territories, being "The Municipal Ordinance and the amendments thereto, and the Ordinance and Acts respecting Red Deer";

And whereas it is expedient to amend the prayer of the said petition; Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

Section 1.—Chapter 36 of the Statutes of the Province of Alberta, 1913 (Second Session), is amended by inserting after section 13 of the said chapter a new section 13A, as follows:

"13A. Except as hereinafter provided, every person, male or female, of the age of 21 years or over, who resides in the City of Red Deer for at least three months shall, upon the passing of a by-law therefor, pay to the City of Red Deer each year, as part of the general revenues of the city, a tax for the services rendered by the city, herein referred to as 'the service tax,' or 'the said tax.'"

"(2) For the purposes of this section, residence within the City of Red Deer shall be understood as 'actual residence' therein for the said period of three months, irrespective of whether such person intends to reside in the city permanently, or whether or not the said period of residence is wholly or in part only within the year in which the said tax becomes due.

"(3) The amount of the annual service tax payable by each person liable therefor shall be not less than the sum of \$5 or more than the sum of \$25 as provided in the next subsection.

"(4) The council of the city may pass a by-law fixing the amount of the annual service tax for all persons as above provided and the council may make different rates of the amount payable by different classes of persons so as to fix the amount thereof payable by each class of persons in accordance with any basis of classification the council may adopt for such purpose.

"(5) Married women residing with their husbands shall be liable for the said tax, and the council may also by by-law provide for exempting therefrom any other class or classes of persons.

"(6) The service tax shall become due and payable on the first day of July, 1921, unless the council by by-law fixes an earlier date for the payment thereof, in which case the service tax shall become due and payable on the date fixed by such by-law.

"(7) The service tax shall become due and payable in each year after the year 1921 on the first day of January of each year.

"(8) If any person has not resided within the city for three months prior to the date the service tax becomes due and payable in any year, such person shall become liable to pay to the city the said tax for that year as soon as such person shall have been a resident of the city for three months.

"(9) The service tax shall be due and payable from each person liable therefor upon and after the date such tax becomes due and payable in any year, or as soon as any person shall have been a resident of the city for three months, without any formal demand for payment thereof.

"(10) Every employer, including partnerships and companies, upon application therefor to such employer, or to the manager of the business of such employer, shall be liable to furnish to the place of business, forthwith to the Treasurer of the city, or to any other person authorized by him to apply therefor, the name and address of each and every person in his or its employ, and the wages or salary paid to such employee, and of any other information that may be reasonably required for the purpose of the said tax.

"(11) Every person shall furnish forthwith, upon request made therefor by the Treasurer of the city, or by any other person authorized by him to apply therefor, his or her name, place, and period of residence within the city, and shall also inform the Treasurer or other person whether or not he or she is of the age of 21 years, or over, and the wages or salary received during the three months preceding the date the said tax became due and payable by such person to the city.

"(12) Every employer, and the manager of the business of such employer, and every person who refuses, or neglects for three days after request made therefor, to furnish the information required to be furnished under either of the said two preceding subsections, or who furnishes any false information, shall be liable to a penalty not exceeding \$100.00 exclusive of costs.

"(13) Every employer shall pay to the City of Red Deer within one month after notice by the Treasurer of the city the full amount of the service tax payable to the city by any employee of such employer, whether such tax has been previously demanded from such employer or not, and the amount so paid may be deducted by the employer from the wages or salary of the employees.

"(14) The service tax may be recovered by suit in the name of the city as an ordinary debt due from any person liable to pay same, and may also be recovered by distress and sale of any personal property belonging to such person at any time after such tax becomes due and payable provided, however, that before action is commenced, or seizure is made, demand in writing for payment of the service tax shall have been delivered to such person or shall have been mailed to the correct address of such person.

"(15) In the case of the person primarily liable for the said tax at least three days, and in the case of the employer at least one month, shall have elapsed after the delivery or mailing of such demand.

"(16) The service tax shall be collectable on behalf of the city by the Treasurer of the city, or any person duly authorized for such purpose.

"(17) The Treasurer shall keep a register of the names and addresses of all persons who have paid to the

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-LIVES"

MR. AMEDE GARCEAU

82 Hickory St., Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-lives' and in a few days I was up and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-lives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-lives' a trial."

AMEDE GARCEAU.

Box a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

TEMPERANCE PEOPLE WAIT ON PREMIER

A delegation of over four hundred prohibition people of the province received a splendid hearing before the Premier and members of the cabinet a few days ago. Many parts of the province were represented on this delegation.

Rev. W. G. Brown, President of the Social Service Council, presented the case for the prohibition people, emphasizing the fact that the largely signed Moderation League Petition did not represent the people. The General Secretary gave facts and figures as the result of the referendum and the decrease of crime in the province. Other speakers were Rev. W. A. Smith, Moderator of the Conference of the Methodist Church, Rev. F. D. Roxburgh, Chairman of the Social Service Council, and Rev. W. A. Clarke, of the First Baptist Church. Among the speakers for their individual churches, Rev. Capt. Carstairs, stating that he represented a large section of the Anglican church, spoke strongly to the resolution. Mrs. Nellie McClung was the last speaker, and as representing the Women's League petitioned the Premier.

The Premier stated that he was replying to the delegation in a very few days and the results of the referendum would be before the people. The Premier stated that he was replying to the delegation in a very few days and the results of the referendum would be before the people.

Piles Cured Permanently Without Drugs

Internal Bathing Relieves the Cause

Dr. A. N. Steele Cupar, Sask. writes: "I had been troubled with my Stomach, Piles and Constipation for years until I had become very thin and looked 20 years older. A leading Doctor in Regina told me that the main canal was badly ulcerated, and gradually became worse, until one day, when purchasing a threshing outfit from Mr. Russell of Regina, Mr. Russell noticed my condition and said: 'I can cure you. Get a J.B.L. Cascade.' Well, I did so, and the first night I used it I slept all night. The first time in weeks, and in a short time felt quite myself again. It also cured my piles, which had troubled me for years."

If you are troubled with Constipation, don't drug yourself. Internal Bathing with the J.B.L. Cascade is the only permanent way. This wonderful appliance is the invention of Dr. Chas. A. Tyrrell, New York. It is pleasant and easy to use, and will serve the whole family. It should be in every home. See the J.B.L. Cascade at Gatz-Cornett Drug & Book Co., Druggists, Red Deer, Alberta, where it will be shown and explained to you. Ask for 32-page booklet all about internal bathing.

"(17) The Treasurer shall keep a register of the names and addresses of all persons who have paid to the

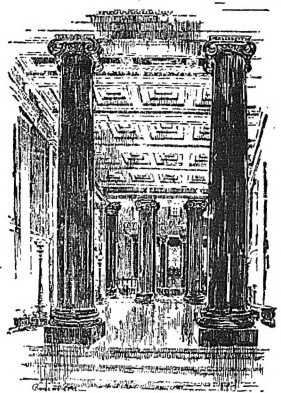

Banking Friendships

The friendship of a strong Bank fills an important place in the life story of every successful business man. The experience, the information, the analysis of trade conditions and financial problems, which the progressive Bank offers its customers, have often been the means of averting a crisis and paving the way to prosperity and independence.

THE MERCHANTS BANK OF CANADA

Head Office: Montreal. Established 1864.

PENHOLD BRANCH. W. T. HUGHES, Manager.
CALGARY STOCK YARDS BRANCH. W. T. HOPKINS, Manager.

Financial Strength

THE principles upon which a Bank is founded, the number of years it has been in operation, and the policy followed during these years—these features, combined with its present standing, form the criterion of the strength of a Bank.

The Bank of Montreal began business in the year 1817, with a modest capital of \$1,250,000, and for over a century it has followed a conservative—aggressive policy until to-day its capital and reserve fund total \$40,000,000 and its total assets are in excess of \$50,000,000.

BANK OF MONTREAL

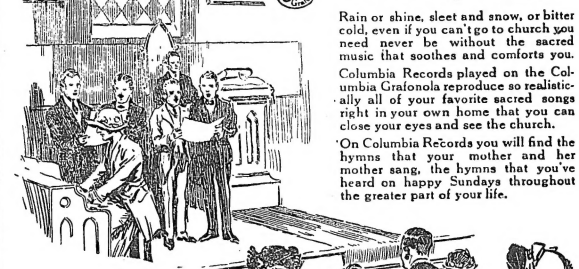

HEAD OFFICE: MONTREAL.

Branches in every important city and town in the Dominion and Newfoundland

to the enforcement of the law, they protesting against any action 'being taken in response to the Moderation League petition. The matter of amendments will be up for discussion in the Legislature in a very few days and the results daily from all parts of the province will soon be before the people.

DOWN THE CHRISTINA RIVER BY CANOE

A Paper Which Was Read at a Recent Meeting of the Natural History Society, Red Deer.

(By F. L. Farley, Camrose)

When your secretary wrote to me early this month, asking for a paper on a subject, to be read before your Society, something about birds came to my mind. However, there was a suggestion in the letter that an account of one of my trips to the north would be acceptable, and I must give your secretary credit for discerning what I might have overlooked. I had planned a trip to the north, straight bird talk, and what this paper will endeavor to be, a general description of the little known country to the north of Lac la Biche.

The trip was made to the Alberta and Great Waterways railroad on the morning of the 13th June, 1919, my friend Dick Englebert and I had really commenced a trip which we had planned for nearly a year. Our equipment consisted of a 16 foot canoe, small tent, plenty of blankets, camera, rifle and collecting gun, traps, and food for at least three weeks.

The train was crowded; about one half of the passengers detained before Lac la Biche. The rest of the balance continuing next morning for McMurtry and points further down the river. The train was crowded with people; drillers, Dominion surveyors, employees of Hudson Bay posts, individual traders, and a few Roman Catholic priests, all crowded into the rickety old coaches.

We arrived at the village of Lac la Biche after dark, and as it was only a few weeks previous to this that the town had been wiped out by a very disastrous bush fire, there was no place to sleep under cover, so we were obliged to make do with the train for the night. As the train would not pull out in the morning before six o'clock we planned to rise early, and take a walk to the Lake, which was less than half a mile from the station.

It was sad indeed to see the desolation that was evident on all the sides from the effect of the fire. The town had been chopped out of a heavy growth of poplars and balsam of Canada; all the stores and houses of the village had been completely destroyed. As far as one could see, the same picture presented itself—full poplars and balsam of Canada, the trees that were alive and green a few weeks before were in many cases half burned and dead.

As this was just the height of the breeding season for most of our birds, the loss to them may have been enormous; nothing in the way of nests or eggs in these woods could have escaped.

We found later that this fire had raged for many miles in all directions, and from the observation that was evident in all the birds which we saw, concluded that all the land birds at least must have suffered a total loss of their nests, eggs and young. As we walked toward the Lake that morning there were Ravens, Loons, Flickers, Wood Peckers and many others, not singing in their usual Junco notes. There was a sadness in their notes as they sang, and I thought if ever there was a time when the melancholy notes of the Wood Pewee had their proper setting, it was right there.

The question then arises, what proportion of these birds nested again? No doubt many did, but some of the varieties would have to migrate many miles before conditions would be found suitable. Would they move north to the mountains? One cannot imagine a Vireo or an Oriole placing its nest out on the end of a leafless branch, a Thrush making its nest on the bare exposed ground. Song Sparrows, White Throats and Junco birds without any protection whatever. Woodpeckers, Chickadees, Bluebirds, House Wrens and others that nest in holes of trees would have no difficulty in finding new homes.

It would have been interesting to have visited that country later in the season, and note whether there was a shortage of birds, or if the reproduction was great enough to make up the average.

Leaving this interesting Lake and surroundings at 10 o'clock, we reached Conklin, about 80 miles north of Lac la Biche, just before dark. Many times the train had to back up so as to get a fresh start to make a stiff grade. The average speed over this part of the line was not more than ten miles an hour. Conklin is a trading post, and the centre of a band of Cheyenne Indians and is about one mile from the west end of Christina Lake. We were the only ones to get off here, and it was long before our equipment was on the lake end of the portage. Christina Lake is a beautiful expanse of water about ten miles long, and from one quarter of a mile to two miles in width, small streams enter it at both ends, and Jackfish River empties it at the north west corner. The country surrounding the lake is mostly muskeg, with ridges of Jackpine every mile or so.

The height of land lies south of the lake, and all the drainage is to the Arctic Ocean. There is very little land fit for agriculture, although potatoes and small fruit would grow on the sandy slopes. Some day vast areas of this level muskeg will be brought under cultivation, and the soil under lying the upper vegetable growth should, when drained, yield heavily in oats and cultivated grasses.

In the morning, when about to set out for the east end of the lake, we saw an Indian lifting his fish net, and brought a fine white fish about six pounds in weight for a quarter. He said the lake was full of whitefish, Jackfish and suckers.

As there was a favorable wind, we made a sail of our ground sheet, and by leaving close to the south shore of the lake, made splendid time, and arrived at the end of the lake for dinner. Since early in the morning the song of the Grinnell's Water Thrush was always with hearing. This was the first new bird we met, and an interesting one it was. Closely related to the large family of warblers, yet it has many of the traits of the song sparrow. They were very common through the country traversed the following week or so. Two Bald Eagles and two Ospreys were seen flying high over the lake, a Pileated Woodpecker (one of the species of the Woodpecker family) was heard pounding on a dry stub not far from the shore. The Indians said they were quite common in all the larger

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

One could not but notice the absence of water birds on the north of Lac la Biche.

The impression I have is that the north is the great breeding grounds for most of our ducks, but after this trip, and also, and as most of the ducks had been gathered for weeks for the payment of the Treaty, which was taken place the day after our arrival. The Commissioner had arrived from McKay with his official staff to meet the Indians, who were gathered dressed in the brightest of colours for the occasion. Everything was now ready for the big event of the year, and the old Chief, interpreters, muckers, and traders of all kinds, moccasins clad, gathered early the following morning around the Commissioner's tent.

There were many points of interest in the village, which was interpreted for the Commissioner. The terrible effects of the flu the previous winter had made the duty of the Commissioner to grant more money in many places, where the people were suffering from the disease. There were points to be decided, whether a young Indian who worked in the village, a young man, was of the Reserve temporarily, should receive the full amount of Treaty. At times the noise and argument was so great, and continued so long, it seemed as though the matter would never be settled, but the Commissioner always used good judgment and was able to quiet them. Late in the afternoon the great gathering dispersed, and for the next couple of days the merchants and traders had their things.

About the first of July we left McMurtry, walking to the end of the lake, about 15 miles from there we took a steamer to Lac la Biche, then home by train.

For the last 25 years I have endeavored to take some kind of a trip each summer to the newer parts of the province, sometimes by backboard and canoe, sometimes by motor boat, automobile or canoe, and I have come to the conclusion that the latter mode of travel is by far the best. I think we are fortunate indeed to have such a wonderful country in its virgin state right at our very doors, where we can delve deep into the Natural History problems, which have received practically no attention up to the present.

I cannot close this paper without congratulating your Society for the splendid work it is doing, and I think special mention should be made of the founder of it, my old friend Dr. George, with whom I had the pleasure of one of my first expeditions, away back in 1894, into the Buffalo country.

Feb. 23, 4*

The Christina River reminds me very much of your lovely Red Deer, where the same scene is seen from below the surrounding country (in the upper stretches), flowing nearly as swiftly with occasional rapids. Along its banks grow scattered spruce, balsam and poplar, with very dense undergrowth of willow and alder birch. On one of our trips away from the river we found over an acre of a large variety of ferns growing in a low damp place. The ferns were about three feet high, and were so luxuriant in their growth that even the spruce and willow had not been able to get a foothold in their domain.

We measured some of the larger spruce close to the river, and found them to be four feet thick several feet from the ground. A new tree to me was the Balsam, which seemed to be scattered sparsely on the flats. The oxbow of the river turns were all well timbered with poplar and balsam, and if there is any truth in the report that our native Balsam of Gilead wood is suitable for the manufacture of furniture, there should be a good prospect of development along this line.

On the third day about noon we came to the junction of the Winifred River with the Christina. The latter is not as large as the Christina. We followed this stream up for a few miles, and then, in the afternoon as we drifted down again we saw a beautiful black tail deer spring up from among the bushes, and presently loped off into the bush.

The same day we came up to within a hundred feet of a cow moose and her calf. She had seen a moose and her calf to half a mile, and was as unconcerned as if we had been nothing but a drifting log. We passed many Morganses with their broods of young, one solitary Kingfisher was seen. Bank swallows had their nests in large colonies wherever the formation of the river banks offered the right timber. The muskrat was always with us, using a dead limb overhanging the river from which to make his tight, five-chambered balloon, catching insects on the wing; they had this act down to the same level as the Kingfisher or any of the flycatchers. Franklins Grouse, Ruffed Grouse and Canada Jays were frequently seen and heard, during trips in the river.

The following birds were not seen: Sharpshin Hawk, Meadow Lark, Song Sparrow, and Catbird. Whether this was north of their range, or the conditions of the country did not suit them, I am not sure, but the latter supposition is likely the more correct, as the Vesper and Meadow Lark is plentiful on the Grand Prairie

SANITARY AND HOTEL REGULATIONS ARE PROPOSED

Hotels, Rooming Houses, Restaurants, Green Stations, Etc., Affected.

J. Williams, Provincial Health Inspector, when interviewed by The News last Thursday drew attention to proposed action that should mean much to the comfort and convenience of the travelling public in particular. Regulations under the Public Health Act have been drafted by R. B. Owens, sanitary engineer for the province, whereby the public will be protected to a greater degree in villages and towns where there is not a regular system of waterworks, and also in towns where such a service exists, hotels will be compelled to make use of the town system. The regulations regarding hotels, rooming houses, restaurants and temporary restaurants have been drafted and will be presented to the provincial health board almost immediately. These require that in addition to the regulation that proper cleanliness shall be observed in all such places, that there be proper heating and ventilation, that clean bed linen shall be provided, and that sheets shall be at least 38 inches long. People serving must also come up to regulations regarding the serving of the public that are properly cleaned.

The public is also to step up to the line in the way of co-operation with the public eating places and hotels. For instance, persons will not be allowed to go into a restaurant and make themselves obnoxious. Other new regulations drafted by the engineer will prohibit persons from breaking through impervious sub soil to the gravel strata for the disposal of the sewage, as this same strata in many cases provides the water supply for the community. This regulation also lays down the procedure for the disposal of small sewage plants. Such plants must be the approval of the village board of health before being submitted to the provincial board. They also would make the village council responsible for the pumping and removal of the different private sewage disposal plants. They provide, however, that a bylaw may be passed, making a reasonable charge for service of this sort.

Another regulation designates the location of the nuisance grounds, which must be at least 100 yards from a road allowance or from a dwelling place.

Other new regulations provide for the sanitary conditions of crematoriums, the fittings of stations collect milk and cream for consumption, for the proper condition of empty ice cream cans and also for a garbage can that will automatically close before the provincial board before going to the government.

SHOW CO-OPERATIVE MARKET SYSTEM

Motion Pictures Illustrate the Process From Farm to Packing House.

The Central Alberta Live Stock Shipping Association was fortunate in having the benefit of a motion picture demonstration here of the methods of live stock marketing on the co-operative plan. The meeting was held in the city hall last Tuesday evening with M. W. Molynaux in charge of the machine. The weather and the roads were very unfavorable, yet possibly 125 people were in attendance.

The first part of the program was taken up in showing a good line of views for general entertainment. The live stock film first showed the farmer collecting his live stock for market and turning it over to the shipping agent. Upon being driven to the local stock yards, each animal is carefully marked with a series number before being mixed with other cattle for shipment.

After the rail journey to Winnipeg the stock is placed on sale in the stock yards. The buyers come and the bunch is culled and sorted according to grade, and then sold, and each animal weighed before being turned over to the purchaser.

The educational opportunity is not overlooked. The young man who accompanies the shipment to the yards is taken in charge by the Supt. of the U.G.C. Live Stock Department, and the stock in his charge are compared with some that have topped the market. In this way he is enabled to know the market requirements better.

The financial end of the deal is shown by the preparation of a statement after the staff is all sold. Each animal is accounted for, with the grade and price secured. A detailed statement of expenses is given and a check issued for the balance.

After what has been seen at the yards the young man is convinced that the home stock is not up to the standard. So when he returns home and hands his father the check, he tells him that they are not raising the right kind of stuff. They then proceed to sell off the scrubs. After deliberating with their neighbors, a pool is formed, and they bring in a co-operative shipment of choice breeding stock.

And so the work goes on. By breeding, selecting and advantageous marketing, the live stock industry is being developed. The efficiency of the methods employed will determine the success of the future.

L. M. Gaetz occupied the chair, and a vote of thanks was passed on motion by G. W. Smith and R. F. Pengetty.

EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, March 18.

Cattle—Calgary sales this week show a firm market on the choice steers, with several loads making \$8.25, and ranging down in price to \$7.50; good butchers, \$6.50 to \$7.25, with the latter not selling very readily, and below that quality, slow. Choice cows are scarce, and only a few make the top figures; choice, \$5.75 to \$6.50; butchers \$4.75 to \$5.50; medium, \$3.75 to \$4.50; common, \$3.25 to \$3.75; canners down to \$2.00. Feeder steers, \$5.00 to \$6.75; stockers, \$4.75 to \$6.75. Stocker cows and heifers, \$3.00 to \$5.00. Bulls unchanged and scarce, with tops \$4.50. Calves light run; tops at \$8.50. Receipts very light, but more towards week-end.

Steady prices, with firmer undertone on good beef at Edmonton; top steers, \$7.00 to \$8.00; good butchers,

\$6.00 to \$6.50; medium, \$5.00 to \$5.50. Choice cows advanced; \$5.25 to \$6.00. Choice butchers, \$4.50 to \$5.00; medium, \$3.75 to \$4.50; common, \$3.00 to \$3.50; canners, \$2.00 to \$3.00. Choice calves are in good demand around \$11.00. Bulls from \$4.50 down. Stockers and feeders not very active, with good steers \$5.25 to \$6.25; stockers, \$4.50 to \$5.00; yearlings up to \$5.50. Receipts light, as feeders wait for better prices and have lots of feed.

Hogs—Receipts very light and market firm on the few loads on hand at \$14.50. Today's prices up to \$14.50 and \$15.00. Hogs are in good demand at Edmonton, and receipts light, with price on Thursday \$14.25.

Sheep—Very few killing sheep handled; lambs probably around \$10.50; wethers up to \$8.50; ewes up to \$7.50.

Lambs at Edmonton would bring at least \$11.00, but most of the week's receipts have been breeding sheep; market tone is higher.

Horses—Most of the business in horses is being done at country sales; city auctions neglected during past few days. Milling demands not active, and export business uncertain, with Argentine prices underlining us.

Poultry—Heavy receipts of eggs and no market to ship to caused prices to drop to \$8.50, and outlook uncertain. Creamery butter, tone good and prices still 25c. to 28c. for cartons at Calgary. Cream prices unchanged and receipts increasing. Poultry market firm with fowl 12c. to 22c. live; chickens, 21c. to 26c.; demand good. Cheese 25c. on twine and stills 20c. Potatoes very slow and offered at country points for \$25.00 not taken. Dairy butter slow, and it has to be fancy table to bring 28c.

Eggs at Edmonton are quoted at \$7.50; market weak. Bad weather holding back cream shipments, but big season expected; prices still 45c. 42c. and 35c. Creamery butter firm at 58c. with spread eliminated on city and country orders; when price breaks it will be severe. No whole sale demand for dairy, but retailers taking care of some. Eastern cheese firm, quoted 30c. and 31c. Good poultry market, with staggy chickens 25c.; fowl, 22c., and turkeys 35c. Milk prices reduced to \$2.25, and another 5c. comes off April 1.

Hay—Prices largely matter of local conditions. Country dealers offering upland at \$12.50 to \$15.00, and timothy \$17.00 to \$20.00.

Wool—Western stocks are nearly all cleaned up, and eastern shipments being rushed on before the new clip. Market still slow.

Hides—No outlet for hides yet; dealers paying 25c. to 3c. on beef hides.

Furs—All prices reduced 10 per cent; quotes now \$2.00 to \$5.00; weasels, 20c. to 25c.; beaver, \$5.50 to \$18.00; muskrat, 45c. to 80c.; all others proportionately lower.

BORSALINO HATS GIVEN AWAY.

Thursday, Friday and Saturday

To introduce these finest of high-grade Hats we will give absolutely free to every Suit Customer, an Easter Gift of a \$10 Borsalino Hat. These are all beautiful New Stock.

H. W. BORING, a well-to-do Kansas farmer, says he has gained twenty pounds and is in better general health than he has been in years, since taking Tanlac.

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past," was the straight-forward statement made a few days ago by H. W. Boring, a prominent and well-to-do farmer living at Overland Park, Kans.

"During the two years I suffered I tried everything I knew of to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing seemed to agree with me; in fact, I was almost a confirmed dyspeptic. My whole system seemed to be out of shape. I would have gained across the small of my back so bad at times I could hardly move around.

"My nerves were all unstrung and I would become upset at the least little thing. I seldom slept well at night, and finally became so weak and run-down that I lost weight rapidly. I was also troubled a great deal with catarrh and of mornings had to spend a half hour or more clearing up my head.

"This is just the condition I was in when I began taking Tanlac, and it certainly has been a blessing to me. It just seemed to me made especially for my case. I improved from the first. My digestion now is perfect, and, regardless of what I eat, I never suffer any bad after-effects.

"The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well at night. I have regained my lost weight and am feeling better and stronger than I have in years. I am going to keep Tanlac in my house so that it will be handy at all times."

STATE HAS WITHDRAWN ITS COURT CHARGES

Chicago, March 17.—The state today dropped the cases against all of the Chicago White Sox baseball players, except Chick Gandil, indicted for alleged throwing of the 1919 world's series. The action was taken after Judge William E. Dever had refused to grant a continuance of more than sixty days in the case. The state demanded six months on the grounds that it would take that length of time to gather evidence which would give the prosecution a chance of conviction.

Immediately after the action had

been taken, Robert Corwe, state's attorney, announced that an attempt would be made to gather new evidence and that new indictments would be sought against the men. The players whose cases were dropped were those who had surrendered and given bail, namely, Claude Williams, Joe Jackson, Oscar Felsch, Swede Bieberg, Edna Cicotte, Buck Weaver and Fred McWhorter.

The cases of Gandil, Hal Chase, Joseph J. Sullivan, Abe Ateli and Bill Burns were stricken off the court call by Judge Dever. They were charged with being the men who arranged the alleged conspiracy. Taking the cases off the call prevents calling them up again for six months.

During the past year Canada has lost 46 ocean going freight vessels.

H. S. Stephens, M.P., Center Vancouver, believes that a Dominion election is very close at hand.

Confirmation of the report that the Canada-West Indies trade agreement has been defeated in the Bermuda assembly has not yet been received.

Robert J. Wilson, well known Toronto practitioner, dropped dead in his home on Saturday.

The quantity of grain in store in the different public elevators throughout Canada during the past week has increased greatly.

TO THE LADIES OF RED DEER
AND DISTRICT

I wish to announce to you that I,
the undersigned, have been transferred
here by the Spirilla Coast Co.
of Canada, being a trained costerette.
Fittings are all guaranteed. Should
you need corsets, accessories, etc., before
I call on you, please phone me,
and I will call on you at your convenience.

Present address is 152, Victoria
Ave. but on March 29th, the Spirilla
Coast Corset Factory will be opened at 154,
Ross St. E. A cordial invitation is
given to all interested ladies. Office
hours from 2 p.m. to 5 p.m.

MRS. D. R. LETROY,
Corsetiere.
Phone 400. P.O. Box 375, Red Deer.
